

AC Link

Smart Thermostat

Features

- Works with all split system air conditioners.
- Compatible with Emerald App.
- Easy to connect.
- Adjusts mode and fan setting.
- Automated on/off switching based on geo-location.
- Set Smart Actions to reduce electricity bills.
- 2 Years product warranty.
- Complies with AS4268.

Turn any standard split system air conditioner into a smart one with Emerald's AC Link Smart Thermostat. Whether away at work, on holiday, or enjoying a walk, conveniently manage the home's climate on your phone with the AC Link and Emerald App.

Simply plug in the AC Link within a clear line of sight of the split-system air conditioner. Once paired with Emerald App, the system can be adjusted from anywhere in the world. Set the temperature, switch modes, power it on or off, and create schedules to align the air conditioning with the household's lifestyle to efficiently manage electricity usage and save money.
