

LED Panels

Vanguard with Sensor

Features

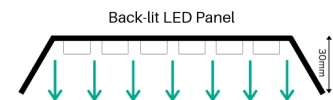

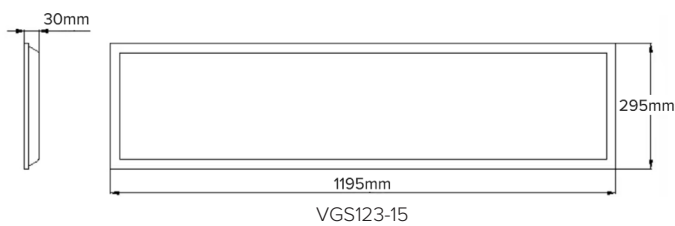

- Affordable high-efficacy LED panel.
- No shadowing or aging.
- Flex and plug included.
- Complies with AS 60598.2.5, ISTMT TM-21, AS/NZ 4268, C-TICK
- Motion and daylight sensor adjustments and dimmable brightness control via the Emerald Remote Control.

Using slimline back-lit technology, the Vanguard Panel provides the most efficient, reliable and affordable LED panel solution for commercial and office space applications. The Vanguard's technology allows light to naturally project through less material, ensuring the panel will not age or discolour over time.

The dual motion and lux sensor can be controlled with the Emerald Universal Remote Control (sold separately). The handheld remote allows you to turn the sensor on/off, adjust colour temperature, and set hold time, standby periods, and dimming levels. It also offers four preset program options, letting you choose a default setting or customise your preferences.

Remote Control sold separately
